adiffly@stephenz.com**NETDEPOSIT CERTIFIES EPSON CAPTUREONE 90 DPM CHECK SCANNER FOR ITS NETCAPTURE BRANCH SOLUTION**

Boston, MA, November 3, 2009 – NetDeposit®, a leading provider of distributed check capture solutions, announced today that it has certified Epson's award-winning CaptureOne™ 90 DPM check scanner for its NetCapture™ Branch licensed and application service provider (ASP) products. Epson's CaptureOne is one of industry's most recognized and well respected check scanners. The NetDeposit NetCapture Branch combined with Epson's CaptureOne scanner offers financial institutions a highly reliable, robust back-counter branch solution.

"More than ever financial institutions are looking for ways to introduce efficiencies and cost savings into their operations," said Chris Styga, EVP and general manager of NetDeposit's Financial Services Solution Group.

"NetCapture Branch offers financial institutions a feature-rich back-counter capture solution, while CaptureOne delivers check scanning accuracy and high reliability."

"Working closely with NetDeposit, Epson delivers CaptureOne's workhorse reliability to more financial institutions," said Mike Helm, Director of Sales and Marketing, Epson System Device Group.

"NetCapture works seamlessly with CaptureOne, making this a solid choice for back-counter check capture."

In October 2008, NetDeposit certified Epson's CaptureOne check scanner for its medium and high check volume product, NetCapture Business. In addition, NetDeposit was among the first to certify support for Epson's SMB products, including the CaptureOne Single-Feed check scanner, the Perfection®V30 flatbed check and document scanner and the WorkForce® 310 All-in-One Scanner. Introduced at NACHA Payments 2009, Epson's new SMB suite offers three affordable scanning devices optimized for small business remote deposit capture.

About Epson

Epson is one of the world's leading manufacturers of highly reliable point-of-service technology, including printers, precision printing mechanisms and digital image scanners. Founded in 1975 and headquartered in Long Beach, CA, Epson America, Inc. is the U.S. affiliate of Japan-based Seiko Epson Corporation, a global manufacturer and supplier of high-quality technology products that meet customer demands for increased functionality, compactness, systems integration and energy efficiency. The Seiko Epson organization is proud of its ongoing contributions to the global environment and for the second year in a row is part of the Dow Jones Sustainability World Index, an indicator for leading companies in economic, environmental and social criteria.
