

New from Epson!

Check Out Epson's Family of Low-cost Check Imaging Solutions for Small Business

Now you can offer your small business customers all the benefits of RDC with three very cost-effective, flexible solutions only from Epson. From the standalone CaptureOne™ Single-Feed scanner to the Perfection® V30 flatbed scanner and WorkForce® 310 All-in-One with Epson's exclusive SureCapture™ check imaging software, Epson has the answer to the check processing needs of small businesses.

CaptureOne Single-Feed Check Imaging Scanner

Epson's CaptureOne Single-Feed scanner is designed expressly for small business customers who process up to 30 checks a day. Built with the same proven reliability as Epson's CaptureOne check scanner, the CaptureOne Single-Feed model features the highest MICR read rate in its class, a high-quality image scanner to ensure crisp, clear check images, electronic endorsement feature and more.

- Ideal RDC solution for small business customers with up to 30 checks/day
- Highest MICR accuracy in its class
- High-quality image scanner
- Resolution up to 200 dpi
- Flexible one- or two-pocket support
- Electronic endorsement feature
- Built-in franker
- Industry-leading two-year warranty

Perfection V30 Scanner with Check Imaging

With Epson's Perfection V30 flatbed scanner you can scan, copy, create PDFs and email documents and photos, plus capture check images for your RDC application all in a single low-cost device. Epson's exclusive SureCapture check imaging software automatically images, crops, aligns and matches both sides of the check, reads the MICR and sends the data to your RDC provider in their required format.

- Ideal for small businesses processing up to 10 checks/day
- Scan, copy, create PDFs, email and image checks in a single device
- SureCapture check imaging software scans and formats checks to meet RDC requirements
- Scans at 4800 x 9600 dpi optical resolution for exceptional clarity
- Photo editing and creative software

WorkForce 310 All-in-One with Check Imaging

With Epson's versatile WorkForce 310 All-in-One you can scan, print, copy and fax documents and photos, plus capture check images for your RDC application all in a single low-cost device. Epson's exclusive SureCapture check imaging software automatically images, crops, aligns and matches both sides of the check, reads the MICR and sends the data to your RDC provider in their required format.

- Ideal for small businesses processing up to 10 checks/day
- Scan, print, copy, fax and image checks in a single device
- SureCapture check imaging software scans and formats checks to meet RDC requirements
- Optical resolution of 1200 dpi
- Built-in Ethernet with wireless capability
