**Newest Teller Printer Offers Top Reliability, Industry-Leading Four Year Warranty**

**Long Beach, CA, March 10, 2010** – Today [Epson](#), a leading supplier of value-added printing and check scanning solutions for the financial industry, introduced the TM-T88V thermal printer, the newest addition to Epson’s best-selling TM-T88 printer series and the latest in Epson’s growing line of reliable teller printers. With an industry-leading, four-year warranty, print speeds up to 50% faster than the previous model, and a small, sleek footprint, Epson’s TM-T88V offers solid reliability along with advanced, full-featured printing functionality ideal for high volume teller transaction printing applications.

“The TM-T88V sets the standard for fast, reliable thermal printing,” commented Mike Helm, Director of Sales and Marketing, Epson System Device Group. “Financial institutions looking for top reliability will appreciate this workhorse, along with its four-year warranty.”

**TM-T88V Features and Benefits**

Designed with even greater reliability than the award-winning TM-T88IV, Epson’s new TM-T88V offers the following features and benefits:

**Top Reliability:** With a MCBF of 70 million lines, 35% higher than the TM-T88IV, and an autocutter life of 2 million cuts, the TM-T88V delivers best-in-class reliability.

**High-Speed, High-Resolution Text and Graphics:** Whether printing text or graphics, the TM-T88V prints at speeds of up to 300mm per second, 50% faster than the TM-T88IV. It’s also the only printer in the industry to offer 16 levels of grayscale to ensure ultra-clear, crisp graphics to highlight your marketing messages.

**ENERGY STAR Qualified:** Epson has a strong commitment to product lifecycle sustainability and a long history of environmentally-conscious design and manufacturing. The TM-T88V has been designed to meet ENERGY STAR qualifications, and is the only thermal transaction receipt printer available today with ENERGY STAR qualified configurations.\*

**Easy to Use, Easy to Maintain:** The TM-T88V's easy-to-use features include drop-in paper loading, an autocutter, easy-to-read LEDs and an improved cover design that prevents foreign objects, like coins and other debris, from getting inside.

**Dual Interfaces:** The TM-T88V comes with dual interfaces (a built-in USB and one additional interface) to ensure easy integration. The TM-T88V offers drop in compatibility with other TM-T88-series printers with no changes to applications required.

**Paper Reduction Feature:** The TM-T88V includes a paper reduction setting which reduces white space between receipts to minimize paper use.

**Product Options:** The TM-T88V offers an optional case to store power supply and secure cords.

### **Warranty and Availability**

With an industry-leading four-year limited warranty, Epson's TM-T88V will be available Q2 2010 through Epson's designated sales and distribution channels. For more information, [visit pos.epson.com/financial](http://pos.epson.com/financial).

### **Epson Solutions for Financial Institutions**

The TM-T88V joins Epson's growing family of banking and financial products, which include printing, check capture and lockbox scanning solutions. Epson's financial solutions are designed to reduce operating costs, speed transactions and increase customer satisfaction.

### **About Epson**

Epson is one of the world's leading manufacturers of highly reliable point-of-service technology, including printers, precision printing mechanisms and digital image scanners. Epson offers a wide range of printing and check imaging solutions that feature innovative technology and functionality to increase productivity, improve customer satisfaction and reduce costs. Founded in 1975 and headquartered in Long Beach, CA, Epson America, Inc. is the U.S. affiliate of Japan-based Seiko Epson Corporation, a global manufacturer and supplier of high-quality technology products that meet customer demands for increased functionality, compactness, systems integration and energy efficiency. The Seiko Epson organization is proud of its ongoing contributions to the global environment and for the second year in a row is part of the Dow Jones Sustainability World Index, an indicator for leading companies in economic, environmental and social criteria.
