**EPSON INTRODUCES TM-H6000IV MULTIFUNCTION PRINTER WITH VALIDATION
Faster Check Processing, Smaller Footprint, More Reliable than Previous Model**

Las Vegas, NV, October 19, 2010 – Today at the [BAI Retail Delivery Show](#), [Epson America, Inc.](#), a leading supplier of value-added printing and check scanning solutions for the financial industry, announced the Epson TM-H6000IV multifunction printer with validation, the successor to its popular TM-H6000III. Designed to speed check transactions, receipt and forms printing, Epson's new TM-H6000IV offers best-in-class reliability with top functionality required for smooth-running teller lines, including the fastest print speeds in its class, speedy check processing with industry-leading 99.9% MICR accuracy, as well as easy drop-in validation and ultra-fast slip handling. With the lowest power consumption in its class and print options that reduce paper usage for receipts over 25%, Epson's new TM-H6000IV is ideally-suited for high-volume teller transaction printing applications.

“The TM-H6000IV is designed for fast, accurate check processing, which saves time and money,” commented Mike Helm, Director of Sales and Marketing, Epson Business Systems Group. “It also offers the highest reliability and lowest power consumption in its class – which are top priorities for many financial institutions.”

TM-H6000IV Features:

- Fastest printing in its class, up to 300mm/second, 50% faster than the TM-H6000III
- Fastest check transaction speed in its class with a greater ability to read checks in poor condition
- Industry-leading 99.9% MICR accuracy, reading a broader area of the check than the TM-H6000III, ensuring the highest percentage of readable checks
- Best-in-class reliability with MCBF of 96 million lines
- Smaller footprint than the TM-H6000III
- Lowest power consumption in its class and print options to reduce paper usage over 25%
- Compatible with current and legacy systems with Epson's Connect-It™ interface modules

Backed by world-class service and support programs, the TM-H6000IV is immediately available through Epson's designated sales and distribution channels.

Epson Solutions for Financial Institutions

More than two-thirds of the nation's top 20 financial institutions rely on Epson. The TM-H6000IV joins Epson's growing family of banking and financial products, which include printing, check capture and lockbox scanning solutions. Epson's financial solutions are designed with industry-leading features and reliability to reduce operating costs, speed transactions and increase customer satisfaction.
