**WAUSAU FINANCIAL SYSTEMS CERTIFIES EPSON SCANNER FOR  
FIRST PRODUCT IN ITS REMOTE CORPORATE CAPTURE SUITE**

**Long Beach, CA, October 15, 2008** – [Epson](#), a leading supplier of value-added banking and payment solutions, today announced that [WAUSAU Financial Systems](#), a premier provider of payment processing solutions for financial institutions and corporate customers, has certified the Epson CaptureOne™ check scanner for its WebDDL® platform, one of three modules in its award-winning Remote Corporate Capture (RCC) suite. The company expects to certify CaptureOne with its Branch and Teller Capture modules in early 2009.

Available immediately to WAUSAU Financial Systems' WebDDL customers, CaptureOne enables fast, two-sided scanning of checks and remittance coupons, streamlining workflow and reducing overall check processing costs. With WebDDL, a financial institution can offer its corporate customers a remote, web-based deposit and payment capture solution. WebDDL enables businesses to capture checks at their business location with the CaptureOne check scanner and then transmit data and check images electronically to their financial institution.

“WAUSAU Financial Systems' Remote Corporate Capture solution suite was recognized as ‘best in class’ by [Aite Group](#) in 2008 and cited as ‘best of breed’ by [Celent](#) in 2006,” said Steve Buchberger, senior vice president, solutions management, WAUSAU Financial Systems. “Any components we offer with our Remote Capture solutions should also be best of breed -- we chose Epson's CaptureOne for the strength of the brand as well as the proven quality and reliability of the product.”

“With CaptureOne, WAUSAU Financial Systems' customers gain a highly reliable desktop scanner that virtually eliminates MICR misreads for both back office and remote deposit capture applications,” said Bud Weist, vice president of sales and marketing, Epson System Device Group.

### **CaptureOne Features**

Epson's compact CaptureOne scanner delivers highly reliable, cost effective check scanning by incorporating one of the most accurate Magnetic Ink Character Recognition (MICR) algorithms in the industry, delivering the best MICR read rate of any desktop scanner available today. Designed for branch capture and remote deposit capture applications, CaptureOne comes in both 30 and 60 documents-per-minute (DPM) versions and offers innovative features including electronic endorsement, built-in franker, double check detector to eliminate double check feeding, 100-check document feeder and industry-leading two year warranty.

### **About WAUSAU Financial Systems**

WAUSAU Financial Systems (WFS) is a premier provider of payment and receivables processing solutions, serving businesses of all types to develop strategies that move money faster. With its products, services and consulting, WFS works with customers to speed check processing, electronic presentment, ACH payments, transaction processing, distributed capture and enterprise content management.
